#### *Allowable Subject Matter*

Claims 1, 2, and 6 – 12 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent **claim 1**, the prior art of record fails to teach or fairly suggest an image pickup apparatus, comprising: **wherein said control unit is adapted to render a greater moving amount of said focus lens corresponding to the detected operation amount when the present state of said focus lens is in a first depth of focus than when the present state of said focus lens is in a second depth of focus, the first depth of focus being deeper than the second depth of focus to keep apparent change in blurring in response to the operation amount of said operation member even**; in combination with other elements of the claim.

Regarding **claims 2, 6 – 9 and 12**, these claims are allowed as being dependent from allowed independent claim 1.

Regarding independent **claim 10**, the prior art of record fails to teach or fairly suggest a control method for an image pickup apparatus; **wherein said controlling step comprises the step of rendering a greater moving amount of the focus lens corresponding to the detected operation amount when the present state of the focus lens is in a first depth of focus than when the present state of the focus lens is in a second depth of focus, the first depth of focus being deeper than the second depth of focus to keep apparent change in blurring in response to the operation amount of said operation member even**; in combination with other elements of the claim.

Regarding independent **claim 11**, the prior art of record fails to teach or fairly suggest a storage medium storing a computer program for causing a computer to execute a control method for an image pickup apparatus; **wherein said controlling step comprises the step of rendering a greater moving amount of the focus lens corresponding to the detected operation amount when the present state of the focus lens is in a first depth of focus than when the present state of the focus lens is in a second depth of focus, the first depth of focus being deeper than the second depth of focus to keep apparent change in blurring in response to the operation amount of said operation member even**; in combination with other elements of the claim.

***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
